## Employment

### Senior 3D Designer | Image Consulting Services, INC

June 2013 - Oct 2021

Designed and developed customer facing retail store elements for multiple nationwide clients, ensuring design is complementary to their existing branding. Established design guidelines for clients to enhance their consumer experience. Interfaced with project managers to generate drawings of fixtures and signage for permit of construction, landlord approval, design approval, and manufacturing. Designed creative storefront and wayfinding signage. Provided high quality 3D renders to clients for design approval.

### Preproduction Engineer | California Closets

Nov 2021 - current

Manage the production and installation of custom closet organization solutions. Lead training sessions for designers on new CAD features and construction updates. Manage special product orders through various vendor portals. Meet individually with designers to provide additional support with CAD drawings. Manage relationships with material suppliers and special order vendors.

## Projects

### UX Researcher and Designer | Health Check

Sept 2022 - Nov 2022

Led usability testing by creating task scenarios on how to schedule an appointment, set a reminder for medication, and adding a new medication to your list. Conducted user test and interviews on scenarios. Contributed to the design of mobile and watch mid-fi and hi-fi prototype using Figma.

### UX Researcher and Designer | Tasti

Apr 2022 - June 2022

Delivered design concept that allows users to better save recipes and organize grocery lists. Conducted key task scenarios on how to save recipes and recall them easily with users. Contributed to the design of prototype using Axure.
